# **GenAl Expense Report**

Period: Monthly

Summary

Income - \$400.00 Expense - \$175.00 Saving - \$225.00

## **AI-Based Financial Overview**

## **Food & Dining Expenses**

You spent a total of \$105.00 on food this period. \$85.00 of this was spent on June 10th, suggesting a large meal or event. Your other food expense of \$20.00 occurred on June 15th. Consider tracking individual food items for a more detailed view of your spending.

#### **Groceries**

Your grocery spending totaled \$50.00 this period, occurring entirely on June 26th. This suggests a single, larger grocery shopping trip. Compare this amount to previous periods to identify potential trends in your grocery expenses.

#### **Transportation & Travel Expenses**

Your transportation expenses amounted to \$20.00 this period, occurring on June 18th. This coincides with a salary payment on the same day. Further categorization of transport expenses (e.g., gas, public transport) could provide more granular insights.

#### **Income**

You received two salary payments of \$200.00 each, on June 10th and June 18th. This totals \$400.00 in income for the period. Track your income consistently to monitor any changes or fluctuations over time.

# **Summary**

This month, your spending was well within your income, resulting in positive savings of \$225.00. However, increased costs in food and transportation suggest an opportunity to refine your budget. Regularly tracking essentials and minimizing non-critical travel can help you boost savings further.
